Aetheris AI S.r.l. · Startup Innovativa · Toscana, Italia

## What we are building (v3.0 — honest)

Piattaforma europea di Applied AI (GenAI + CV + Predictive AI + Agents) per Energy e Manufacturing. AI Act-ready by design.

## Honest about the team

Founder solo M0-M6 + 2 advisor (gratis/equity), poi part-time engineer, poi co-founder commerciale M9. Track record production: 5+ anni, 100k+ utenti/giorno, 99.9% uptime, € 2M+ impatto annuo.

## Proof of Capability: 3 PoC pubblici (M0-M12)

M1-M4: PoC 1 Knowledge RAG (100+ documenti, GitHub+demo+white paper)  
M5-M8: PoC 2 Vision (MVTec/NEU-DET, YOLOv8+ONNX+Gradio)  
M9-M12: PoC 3 Predict (NASA C-MAPSS, 4 modelli, dashboard)

## 12-month target (conservativo)
